

CHURCH FUNDRAISING

KICKSTARTER

GETTING YOUR CHURCH FUNDRAISING BACK ON TRACK

Is this for my church?

Do you know how to start fundraising for your church project?

You've started, but encountering problems and can't move the project on?

You've raised some income, but you need to raise a whole lot more to complete?

Based on decades of fundraising with churches, our kickstarter kit has been designed to meet your church wherever you are. Whether you are a complete novice to fundraising, you know a little or you know a lot – the kickstarter will help you plan better, find more funders and raise more money.

The kickstarter

Church Grants is run and developed by Christian fundraisers and we want to see churches achieve their fundraising aims. The Church Grants team have helped hundreds of Churches to raise millions of

pounds to sustain their work in the community and repair and restore their buildings. They have distilled this experience into a series of handy guides and practical materials that will make an impact on your fundraising.

The Church Grants Kickstarter kit will give you all the tools you need to take your church fundraising to the next level and will coach you to optimise the income you can raise from:

- **Trusts and Foundations**
- **Congregational Giving**
- **The wider local community and local companies**
- **Legacy Giving**
- **Running a successful capital project**

Put together by the Church Grants team, the kit contains:

- Guides to each of streams of fundraising;
- A well tested 'case of support' trust application structure that you can use to apply for funding;
- Templates to plan your project and how to construct a budget;
- A list of local funders that you can apply to;
- A legacy fundraising kit with posters and other promotional materials designed exclusively for your church's use;
- A year's subscription to Church Grants database;
- An initial 90-minute coaching phone call meeting to assess your fundraising needs, what your next steps should be, and how to make use of our materials;
- A 90-minute follow up phone call meeting to gauge how successful these steps have been and to recommend further actions.
